Escola Básica e Secundária Alfredo da Silva  
2019–2022

## Soft Skills

- Critical Thinking • Analytical Skills
- Proactivity • Effective Communication
- Adaptability • Teamwork
- Problem Solving • Organizational Skills

## Professional Profile

I am a physics graduate with a strong quantitative and analytical background, with hands-on experience in data analysis, and mathematical modelling. I am detail-oriented, and intellectually curious. I am passionate about finance, risk management, strategic decision-making, and, in particular entrepreneurship. I aim to build a career within high-impact teams in areas such as investment banking and quantitative research.

## Professional Experience

### BNP Paribas – Rising Talents – Risk Trainee

October 2025 – October 2026

- Selected for BNP Paribas' competitive Rising Talents program, aimed at developing future leaders in risk management.
- Contributed to portfolio monitoring, risk analysis, and stress testing in consumer finance operations.
- Developed dashboards and reporting tools to improve decision-making in risk management.
- Collaborated with cross-functional teams, gaining exposure to credit, market, and operational risk frameworks.

### Junior Consultant (Internship) – D&G Consultants

June 2024 – September 2024

- Developed investment projects and analytics solutions for clients.
- Built data-driven indicators and ran simulations to support decision-making.
- Collaborated with teams on research and analysis, enhancing business insights.

Other professional experiences include tutoring Physics and Mathematics at secondary and early university levels for two years, and working as a waiter at two different restaurants during the summers of 2022 and 2023.
